Following roll call, the prayer was offered and the pledge was led by Councilmember Keith.

At this time, Council deviated from the agenda for the presentation of a proclamation to representatives of HOPE, Inc. declaring April as “Sexual Assault Awareness Month” in the City of Clarksburg.

MOTION by Councilmember Malfregeot, SECONDED by Vice Mayor Marino for approval of the minutes of the Conference (Work) Session of Council held on March 25, 2021. MOTION APPROVED UNANIMOUSLY.

At this time the Mayor called for petitions, communications and public hearings with the following individual(s) appearing therefor:

John Madia, 115 Hartland Avenue - appeared before Council concerning mobile food vendors. Mr. Madia expressed the following comments regarding the vendor ordinance on this evening’s agenda and referenced page 4 thereof commenting that the noise level should be measured and not by someone’s opinion, page 5 mentions insurance opinion that the City should require a business liability policy along with the insurance policy, noted a discrepancy as to the number of food trucks permitted and inquired as to how fines would be issued if such was violated. Page 5 referencing signage wherein banners are to be a certain size pointing out that most banners are larger than the maximum requirement. Mr. Madia remarked that this ordinance came from Huntington, a college town, and that the area food truck vendors should have been given the opportunity to offer their input. Mayor Kennedy asked the City Manager to get with the City Attorney to amend the ordinance.

Brad Morris, 503 Stanley Avenue - appeared before Council to discuss the sidewalk area from Nutter Fort to Broad Oaks, demolition and Certificates of Occupancy. Mr. Morris apprised of the need for a sidewalk from Nutter Fort to Broad Oaks citing a public safety concern for pedestrians. Remarked that he was supportive of the demolition program and pointed out that a reason many of these properties are not rehabilitated is because they are not worth the investment and also opined that the hoops someone has to jump through to rehab said properties are challenging. With regard to Certificates of Occupancy, Mr. Morris remarked that while the same may generate revenue for the City it costs him money and time. Mr. Morris pointed out that HUD housing landlords do not have to pay the $25.00 C/O fee and others inside the government system do not have to pay the fee and asked that the policy be looked into. Mr. Morris went on to say that it wasn’t the $25.00 fee but it’s that combined with everything else and this body initiated said fee. Mayor Kennedy asked the City Manager to check with Nutter Fort to see who owns the real estate referenced above by Mr. Morris.

Kenneth Tyson - “Mr. Taco” - spoke to Council concerning mobile food vendors. Mr. Tyson referenced various sections of the proposed ordinance on this evening’s agenda such as the noise section, signage, insurance, remodeling, etc. Mr. Tyson commented that the ordinance was a
huge step forward but he did not believe the first reading was appropriate this evening in light of the needed changes. Mr. Tyson commented that Council may want to sit down with the local food vendors to discuss their concerns noting that they have been doing this for a while. Also, Mr. Tyson remarked that rather than follow an ordinance for a city 100 miles away, let’s talk about some of this stuff.

Martin Shaffer, 211 N. 6th Street – addressed Council concerning strategic planning. Mr. Shaffer remarked that when he was first elected to Council he wanted Clarksburg to do a strategic plan similar to Bridgeport. Mr. Shaffer stated that the City needs to develop a strategic plan and that the citizens need to be involved.

Councilmember Malfregot inquired of Mr. Shaffer if he had made an appointment with the City to schedule payments for the demolition of his property on Pike Street with Mr. Shaffer responding that he was getting his paperwork from the Finance Department and he would sit down with the City Manager.

(2) Special business tax credit - full time job creation. Any person who locates a new business after January 1, 2011 outside of the Central Business District, the Business and Technology Centre, Glen Elk I District, Glen Elk II District, or any heavy industrial (12) zone, which business has not been located in the City in the previous ten (10) years shall be entitled to receive a tax credit of one hundred percent (100%) of the business and occupation tax owed for six (6) full months inclusive of the date such new business is first so located, commencing on the date such new business is first so located within the corporate limits of the City, contingent on creation and retention of 20 full-time jobs in each quarter of the first six (6) tax months following creation of the business. The purpose and objective of this subsection is to encourage new business development and the creation of new jobs within the City.

(3) Verification - retention of jobs. The required number of jobs to be created and retained by any new business to qualify and be eligible for the tax credit provided by this subsection shall be based on the actual number of full-time employees on the payroll of the new service business during the first month of each calendar quarter, or January, April, July and October of the year in which such tax credit is claimed.

The new business shall provide actual copies of payrolls certified as true and accurate by the appropriate managerial officer of the new business as well as an independent auditor to the office of the Director of Finance for each of the calendar quarter within ten (10) days after the end of each calendar quarter for which the credit is claimed. The Director of Finance may, at the Director’s discretion, request additional payroll information and shall make a determination as to whether the new business qualifies for tax credit under the provisions of this article.

(4) Credits not cumulative. The tax credit provisions of this section shall be in lieu of, and not in addition to any of the credits allowed under Section 745.45, subsections (a) through (g), in the event that the number of new full-time jobs created exceed ninety-nine. The eligibility for tax credits permitted under subsections (a) through (g) will remain for new businesses and expanded businesses that create less than 100 full time jobs.
(5) Administration. The Director of Finance shall have the authority to promulgate written rules, regulations, and requirements not inconsistent with the provisions of this subsection for the ongoing administration of any tax credit claimed hereunder.

(i) Special business tax credit – new business location with minimum construction expenditures. Any person who locates a new business, after May 1, 2021, within the corporate limits of Clarksburg, which business has not been previously located within the corporate limits of the City, shall be entitled to receive a tax credit of one hundred percent (100%) of the business and occupation tax owed for each quarter of the first two (2) years inclusive of the date such new business is open within the corporate limits of the City, contingent on the person making a qualified investment of construction costs, including demolition, site work, and/or any professional services such as engineering or architectural, of at least one million dollars ($1,000,000) in the business’s location, not including the purchase or lease of the property.

745.46 ADMINISTRATION OF TAX CREDIT PROGRAM.

(a) The administration of Sections 745.42 through 745.52 is vested in, and shall be exercised by the Director of Finance, who, in connection therewith, shall prescribe all necessary forms.

(b) The Director of Finance may prescribe necessary rules and regulations that are in conformity with Sections 745.42 through 745.52, for administration of the Business Enhancement provisions.

(c) The Director of Finance may conduct an annual audit of each business approved for a tax credit to determine the continued eligibility of the business and to certify that job levels created under these ordinance provisions are sustained for the required periods.

(d) All businesses requesting a tax credit and those granted a tax credit hereunder shall agree to make all their financial records available for inspection and audit by the City and shall provide copies of all annual audited financial statements upon request.

(e) The amount of any approved tax credit shall be reviewed annually by the Director of Finance to determine continued eligibility of the business for the credit. If any credit is based on the creation of new jobs, and, if at any time the number of new jobs is reduced, below the minimum requirement, the business will lose eligibility for the credit. The procedure for verification of jobs and employment levels will be developed by the Director of Finance.

(f) All businesses approved for a tax credit hereunder shall file a quarterly B & O tax return and report gross income to the City as required by Section 745.04.

(g) The amount of any tax credit allowable begins with the taxable year in which the taxpayer places the qualified investment into use within this City and continues thereafter.
(h) No application for a tax credit will be considered and no credit will be otherwise granted to any existing business who, at the time application is made, is delinquent in the payment of City business and occupation taxes or other applicable taxes.

(i) Once a business is granted a tax credit under this article, the business is not allowed another tax credit under this article for at least five years from the date the initial credit was granted. A business is only eligible for one tax credit under this article at a time and tax credits are not stackable.

(j) In no case will a tax credit be granted to any person who conducts business activity from their residence.

(k) On an annual basis the Director of Finance and City Manager shall be required to submit a summary report to Council on applications for tax credits which were approved and the amount of tax credits granted to businesses. (Ord. 96-18. Passed 7-18-96.)

(l) Any business which has been approved for a tax credit pursuant to the provisions of this Article shall have any such credit revoked and declared ineligible for further credits upon the occurrence of any of the following:

A. Permission. Food trucks selling to the public from private property shall have the written permission of the property owner, which shall be made available to the city immediately upon request.

B. Maximum number of food trucks. No more than ten food trucks may operate at any location unless a special event license has been issued.

C. Placement on lot. Food trucks not parked within designated parking spaces shall not block fire lanes, designated traffic lanes, or ingress or egress to or from a building or street.

(3) Hours of operation. The city may permit extended hours of operation for a licensed special event.

Section 5 - OPERATING REQUIREMENTS.

(a) Vehicle requirements.

(1) Design and construction. Mobile food service vehicles must be designed and constructed for the purpose of preparation and sale of the specific type of food being sold, or they must be so modified to comply with this Article and all applicable public health and safety laws.

(1) Mobile food service vehicles other than ice cream trucks may not operate, stop, stand, or park in any area of the right-of-way that is intended for use by vehicular travel, except in the event of a street closure for a special event. Mobile food service vehicles, including ice cream trucks, may not operate, stop, stand, or park that in any way violates the provisions of the traffic control ordinances of this Code, impedes the flow of traffic, interferes with ingress or egress to or from any property or presents an unsafe condition for patrons, pedestrians, or other vehicles.

(2) Mobile food service vehicles on any street shall park facing the same direction as traffic, at a distance of no more than 12 inches between the curb face or edge of pavement and with the service window of the vehicle facing the curb or edge of pavement.

(3) When a mobile food service vehicle is allowed to operate in the public right-of-way, no seating area shall be provided, except as permitted in conjunction with a street closure for a special event or if there is an area provided on a paved sidewalk that permits compliance with subsection (d) of this section.

(c) Business access. No mobile food service vehicle may operate in a location that impedes the ingress to or egress from another business or otherwise causes undue interference with access to another business.

(f) Noise. No sounds that are otherwise prohibited by this Code may be produced by a mobile food service vehicle's operation. All generators used by food trucks must be 100 decibels or less. The permit administrator may request a demonstration of the generator at any time. If, in the opinion of the permitting authority the generator either violates any noise ordinance, or if it would cause undue annoyance or inconvenience to the public or to residences, the permit may be refused or revoked until a satisfactory alternative is provided.

(g) Support methods. No mobile food service vehicle may use stakes, rods, or any other method of support that must be drilled, driven, or otherwise fixed into or onto asphalt, pavement, curbs, sidewalks, or buildings.

(h) Waste collection. The area of a mobile food service vehicle operation must be kept neat and orderly at all times. Operation of a mobile food service vehicle in an area is deemed acceptance by the operator of the responsibility for cleanliness of the area surrounding the
operations regardless of the occurrence or source of any waste in the area. During each period of operation at a location, the operator must provide proper trash receptacles for public use that are sufficient and suitable to contain all trash generated by the mobile food service vehicle. All trash receptacles must be emptied when full, and all waste must be removed prior to departure of a mobile food service vehicle from a location.

Section 6. MOBILE FOOD VENDOR PERMITS

(a) **Required.** The designated permit administrator shall oversee the issuance, suspension, and revocation of mobile food vendor permits. No mobile food service vehicle may operate within the city without a mobile food vendor permit issued by the city. A mobile food vendor permit authorizes the holder only to engage in the vending of products from a mobile food service vehicle in compliance with this Ordinance and as specified on the permit.

(b) **Exception.** This section shall not apply to contractual arrangements between a mobile food service vehicle operator and any individual, group, or entity for pre-arranged catering at a specific location for a period of not more than four hours, provided that the mobile food service vehicle is not open to or serving the general public.

(4) Each mobile food vendor permit holder shall have an ongoing duty to provide the city with notice of any change to any of the information submitted with its permit application.

(d) Issuance. A mobile food vendor permit shall be issued upon verification that an application has been completed in accordance with the requirements of this section, except that no such permit will be issued to an operator whose permit is currently suspended or has been revoked within the preceding 12 months, or to any person who intends to operate the same mobile food service vehicle for which the operator's permit is currently suspended or has been revoked within the preceding 12 months. If the permit administrator denies the application, such denial shall be in writing and provided to the applicant within 15 days of receipt of the application.

(e) Expiration and transferability. A mobile food vendor permit expires at change of ownership or change in the general type or cuisine of food served. A mobile food vendor permit may not be transferred. (3) Failure to comply with any other provision of this article.

(b) Suspension of permit. A mobile food vendor permit shall be suspended by the permit administrator if:

(1) The applicant for the permit knowingly provided false information on the application.

(2) Two violations of this article have occurred within a six-month period in conjunction with the mobile food service vehicle for which the permit has been issued.

(3) The operator of a mobile food service vehicle fails to maintain a current, valid vehicle registration, health department permit, business license or proof of required motor vehicle insurance coverage.

(4) The permittee has failed to pay taxes or licenses as they become due.

(c) Revocation of permit. A mobile food vendor permit shall be revoked by the permit administrator if:

(1) Four violations of this article have occurred within a 12-month period.

(2) A mobile food service vehicle is operated in an unlawful manner so as to constitute a breach of the peace or otherwise threaten the health, safety or general welfare of the public.

(d) Reinstatement.

(1) Suspended permit. An operator may reinstate a suspended mobile food vendor permit by taking such actions as may be necessary to correct a mobile food service vehicle's noncompliance and paying a reinstatement fee of $500 to offset the city's cost of enforcement measures, inspections and compliance verifications.

(2) Revoked permit. An operator whose mobile food vendor permit has been revoked may apply for a new permit after 12 months from the date of revocation, provided the operator has taken such actions as may be necessary to correct a mobile food service vehicle's noncompliance. The operator shall pay a permit reinstatement fee of $500 to offset the city's cost of enforcement measures, inspections and compliance verifications.

Section 8 - APPEALS.

(a) **Filing.** The denial, suspension, or revocation of a mobile food vendor permit by the permit administrator may be appealed by filing a written notice of appeal, establishing the grounds for the appeal, with the City Manager or designee no later than ten business days following receipt of the notice of denial, suspension, or revocation.

(b) **City Manager’s review.** When an appeal is filed with the City Manager as set forth herein, the City Manager or his designee may request such additional information from the operator and the permit administrator as may be deemed necessary. At the City Manager’s or designee’s discretion, the appeal may be decided based on the written information and documentation submitted, or a hearing may be scheduled with the operator and the permit administrator. The City Manager’s decision shall be issued in writing, based on a written summation of the pertinent facts, and shall be final. The City Manager may reverse the denial, suspension, or revocation of a permit, or may reduce the waiting period required for reinstatement of a revoked permit if it is determined that the operator has taken reasonable steps to mitigate the violations leading to the revocation and to prevent future violations.

(c) **Refunds.** There shall be no refund of an application fee for a mobile food vendor permit that has been denied. There shall be no refund of a reinstatement fee for a suspended or revoked permit unless the City Manager or his designee determines on appeal that the permit administrator acted in error in suspending or revoking the permit.

Section 9 - MISCELLANEOUS.

(a) In case of conflict between this ordinance or any part hereof, and the whole or part of any existing ordinance of the city, the provision that establishes the higher standard shall prevail.

(b) If any section, subsection, clause, provision, or portion of this ordinance is held to be invalid or unconstitutional by any court of competent jurisdiction, such holding shall not affect any other section, subsection, clause, provision or portion of this article.
